ADVANTAGES OF BEING A FREE PORT (Law 16246)

LOGISTICS DISTRIBUTION

- Entry, storage and exit of merchandise without paying taxes.
- The merchandises can be handled in the most convenient ways: grouped, divided, marked, or whatever the clients need.
- Partial nationalization, allows customers to manage their stocks for shipments to any destination, keeping all inventory under their control.

FINANCIAL IMPACT

- Free Flow of capitals and tax free operations either for Uruguayan or foreign trading companies.
- Reduced import costs due to lower CIF (only last international freight applies: port / border).
- Maintains Certificate of Origin.
